To: Marlene H. Dortch, Secretary

My name is James L Teel. I am a resident of Winter Park, Florida. I am an unsecured creditor who is owed \$320,000 in the Maritime Communications/Land Mobile, LLC ("MC/LM") Bankruptcy. I have obviously had a great deal of interest in this issue. I voted as a creditor for the Plan of Reorganization, and wrote to the Commission in May, 2013, nearly a year and a half ago, expressing my support for the approval of the Second Thursday application of MC/LM and Choctaw Holdings, LLC.

I find it difficult to understand why, after nearly a year and half of what I assume to be considered deliberation, the FCC has refused to grant relief to myself and other creditors. It defies logic and common sense that innocent creditors would be denied any recovery at all because a worthless guaranty would be extinguished. As retired individuals, the money owed to us is of

great importance to my wife and I. I personally know many of the other creditors, and they are in similar circumstances. We simply must have some relief in this situation, and have neither the means nor the time to accommodate more delay. To continue to delay and deny what has been carefully considered, voted on, and approved by the Bankruptcy Court, as an equitable and just solution is unfair to all parties.

I have reviewed all of the publicly available documentation related to this matter, including the FCC Order, the Petition for Reconsideration, and the Opposition of the Enforcement Bureau of the FCC and Responses by Choctaw Telecommunications. Any unbiased person reviewing the situation would have to conclude that the only equitable solution would be the approval of the Plan, which would allow all creditors to be paid, based on a plan, which was legally approved, and that they had the opportunity and did vote in favor of.

As a creditor I voted for the Choctaw Plan and still support the efforts of the Choctaw Group as the best opportunity for a recovery of these funds, which my wife and I are relying on for support. I am confident they will represent the interest of the creditors well, and be responsible FCC license holders.

I strongly encourage the Federal Communications Commission to immediately revisit and approve the applications filed by Choctaw Holdings, LLC in accordance with the Second Thursday doctrine.

Thank you for your consideration in this most important matter.

Sincerely
